National Community Pharmacy Economic Analysis.
Help inform review of sector costs.

Community pharmacy owners are invited to share data to inform an important fiscal review of the sector.

With the sector struggling to cope under intolerable financial pressure, NHS England's independent economic review offers an opportunity to demonstrate exactly what your pharmacy businesses are going through and Community Pharmacy England is supporting the call for pharmacy owners to get involved.

Frontier Economics, who are undertaking the review, estimate it will take around 15-20 minutes per pharmacy to complete, and require you to have your most recent financial accounts to hand, any data you share will be **anonymised, grouped, and will remain confidential**. The respondents will not be disclosed, as we appreciate the commercial sensitivity of the data.

If you decide to take part, please consider your responses very carefully to make sure that you are providing full details of all of the costs involved in running your pharmacy.

If you have already contributed to the initial request, we will not require any additional information, and we thank you for support and input.

All contractors willing to participate please use the link to register your interest in taking part in the analysis.

Your input could potentially help shape the future of the sector.
