

## **Enable GP Connect Access in PharmOutcomes**

---

Registered pharmacy professionals can view **read-only patient information** from the GP record (including medications, investigations, and observations) via **PharmOutcomes** for Advanced Services such as:

- Pharmacy First Service
- Pharmacy Contraception Service
- Hypertension Case Finding Service

### **Account Configuration Required**

To access this information, **each registered professional must have GP Connect Access Record enabled and configured within their User Account.**

### **Note:**

GP Connect Access is **enabled at all sites**, but it must be **configured at the site level** for each user. Follow the steps in the guidance document to enable it.
