## Low Carbon pMDI HCP and Patient Materials

There is stock of the new low carbon pMDI in the country so patients will now be receiving these inhalers.

The PIP codes remain the same so there are no actions for prescribers.

Patients on repeat prescriptions will automatically be transferred onto the new low carbon version when they collect their repeat.

Attached materials to educate HCPs and patients on the new low carbon pMDI.

The link to the product website is here <https://www.myastrazeneca.co.uk/trixeo.html>

The BSOL formulary has been updated with a Green Footprint.

**Details...**

03.02.03 Combination products (ICS+LABA) for COPD

**Beclometasone/formoterol/glycopyrronium** (Trimbow® MDI) **Formulary**

**GREEN** **COPD**

**BNF** **SPC** **BNF C**

See separate formulary entry for use in asthma

Metered Dose Inhaler

The NHS wants to use more environmentally friendly inhalers which have a low carbon footprint where possible

Metered dose inhalers have a high carbon footprint, which is shown using this symbol

It is important you do not stop using your inhalers

Ask your doctor, nurse or pharmacist which low carbon inhalers might be suitable for you

**Formoterol, budesonide and glycopyrronium inhaler** (Trixeo Aerosphere® pMDI) **Formulary**

**GREEN**

**BNF** **SPC** **BNF C**
