## **Pharmacy First - GP Conversation Guide**

To support effective engagement between community pharmacies and general practice teams, a GP Conversation Guide is available to cover ALL the Primary care Access Recovery (PCARP) services; Pharmacy First, Blood Pressure and Contraception.

This guide provides practical support for contractors to confidently start a communication with the local surgery (visit) and to foster greater collaboration and partnership working with the surgery team. The guide is intended to support:

- Clear and consistent communication with general practice
- Shared understanding of the Pharmacy First service
- Productive local conversations to support service delivery

Contractors are encouraged to review and use this guide where appropriate to support local collaboration.

Please access the General Practice Conversation Guide using the link below:

Thank you.
