Help Shape a New Pharmacy First Service

CP BSOL have been asked to share the attached opportunity for community pharmacies to participate in an early pilot study of a new digital service designed to support direct access to Pharmacy First.

The aim is to help suitable patients access Pharmacy First directly and provide pharmacies with useful information before the consultation. Pilot pharmacies would receive early access at no cost and have the opportunity to help shape the service.

Please see the attached flyer for further information and contact details if you wish to express an interest.

Thank you.
