Services activity information
NHS Contraception Service

The pressures being experienced from dispensing income and rising costs are leading more BSol contractors to seek ways to increase revenue through delivery of advanced services.

The LPC will be publishing periodic services activity information to support contractors to make decisions about which services to offer by sharing publicly available data (usually NHSBSA).

This report is the latest Contraception activity update the LPC has shared with contractors and will be repeated in January 2027.

Future reports will include:

- October - NMS Service
- November - BP service

Contractors requiring further information should contact support@bsollpc.co.uk
