Services activity information
NMS

The pressures being experienced from dispensing income and rising costs are leading more BSol contractors to seek ways to increase revenue through delivery of advanced services.

The LPC will be publishing periodic services activity information to support contractors to make decisions about which services to offer by sharing publicly available data (usually NHSBSA).

This report is the latest NMS update the LPC has shared with contractors.

Future reports will include:

- November - BP check service
- December - Pharmacy First
- January 2027 - Contraception service

Contractors requiring further information should contact support@bsollpc.co.uk
